Weekly Coal Production

Production for Week Ended:
February 25, 1989

Preface

The *Weekly Coal Production (WCP)* provides weekly production estimates of U.S. coal by State, as well as supplementary data which are usually published twice a month. Supplement 1 includes monthly and annual U.S. level data on coal production, consumption, stocks, imports, and exports. This week's Supplement 2 contains detailed monthly data covering electric utility coal consumption, stocks, and receipts (quantity and price); and coal imports and exports.

This publication is prepared by the Coal Division; Office of Coal, Nuclear, Electric and Alternate Fuels; Energy Information Administration (EIA) to fulfill its data collection and dissemination responsibilities as

specified in the Federal Energy Administration Act of 1974 (P.L. 93-275) as amended. *Weekly Coal Production* is intended for use by industry, press, State and local governments, and consumers. Other publications that may be of interest are the quarterly *Coal Distribution Report*, the *Quarterly Coal Report*, *Coal Production 1987*, and *Coal Data: A Reference*.

This publication was prepared by Wayne M. Watson under the direction of Mary K. Paull and Noel C. Balthasar, Chief, Data Systems Branch. *Questions on energy statistics should be directed to the National Energy Information Center (NEIC) at (202)586-8800*.

• Released for Printing March 3, 1989

Summary

U.S. coal production in the week ended February 25, 1989, as estimated by the Energy Information Administration, totaled 19 million short tons. Production totaled 12 million short tons in states east of the Mississippi and 7 million short tons in states west of the Mississippi.

This report contains data on electric utility coal receipts and prices for November 1988 in addition to electric utility coal consumption and stocks for December 1988. Also included are data on U.S. coal and coke exports and imports for December 1988.

Some of the highlights of these data are:

- Coal consumption at electric utility plants reached a record level of 757 million short tons in 1988, surpassing the 1987 level by 5 percent. The higher level of coal consumption is primarily attributed to the increase in electricity demand in 1988, as well as the substitution of coal-fired electricity generation for hydroelectric generation in some areas affected by the summer drought. Substantial increases in coal consumption occurred in the West North Central, Mountain, and West South Central Census Divisions, particularly in North Dakota, Texas and Montana.
- The average price of coal received at electric utilities through November 1988 continued to run about 4 percent below the 1987 prices for the same period.
- Coal stocks at electric utilities in December 1988 dropped 2 percent from the November 1988 level, ending the upward trend that began in September. December 1988 electric utility coal stocks were 14 percent lower than in December 1987.
- Coal exports in 1988 were 15 million short tons (19 percent) higher than in 1987, mainly due to increased exports to Canada, Japan, Belgium and Luxembourg, and Denmark.
- Coal imports in 1988 increased 22 percent over the 1987 level, chiefly as a result of higher coal import levels from Colombia and Venezuela. The average price of coal from those countries dropped 12 percent and 26 percent, respectively.

AFTER THE DECLARATION OF INDEPENDENCE OUR FOUNDING FATHERS WROTE SOMETHING EVEN MORE IMPORTANT.

Ten years after the signing of the Declaration of Independence our founding fathers created what historians have called the greatest single document struck off by the hand and mind of man.

Our founding fathers created the Constitution of the United States.

For the first time in history, power was granted by the people to the government, and not by the government to the people.

The freedom unleashed by the Constitution allowed Americans to develop their talents and abilities to the fullest. And attain what is now known the world over as the *American Dream*.

As we commemorate the Bicentennial of the Constitution, there is no better way for you as an American to reaffirm the principles for which our country stands than to learn more about the Constitution.

The words we live by.

THE CONSTITUTION

The words we live by

To learn more about the Constitution write: Constitution, Washington, D.C. 20540. The Commission on the Bicentennial of The U.S. Constitution.
